

# E20.1 · primi replay esterni · 22 KPI

Submission [56142698](#) · Complete · rating osservato 944 · 10 settembre 2026.

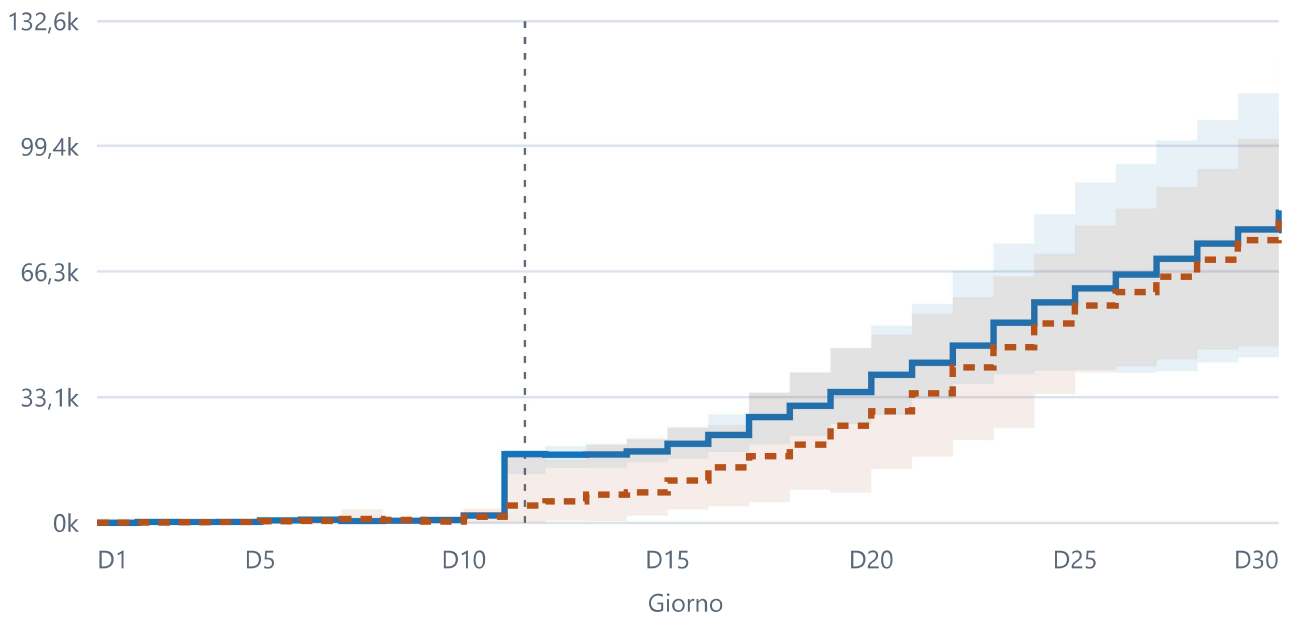

**12/21 vittorie.** Coorte congelata al primo accesso: 21 partite competitive complete, un self-play conservato separatamente (107446770), un incontro ancora in corso escluso. Nessun filtro per risultato. Tutte le finali E20.1 sono 7–7–2.

Mediana puntuale e banda min–max, non intervallo di confidenza né una singola partita. Stessi incontri per le due serie, avversari eterogenei: questa è la diagnosi della coorte esterna, non il benchmark Top772 ancora da identificare.

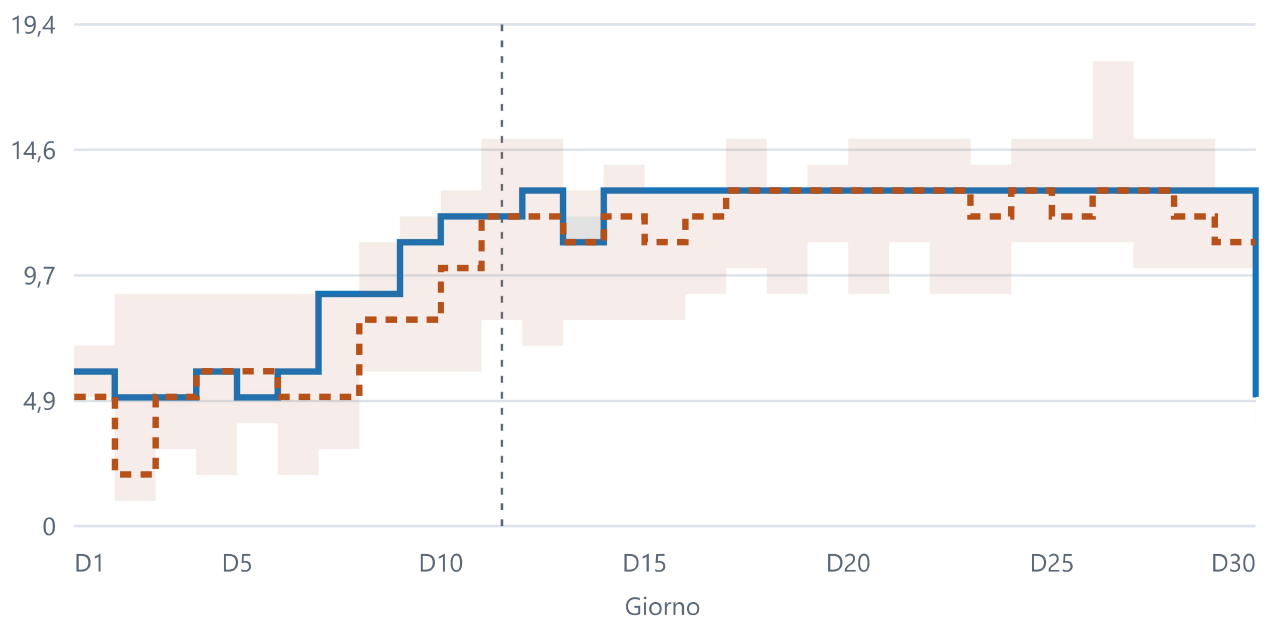

| Indicatore                        | E20.1     | Avversari |
|-----------------------------------|-----------|-----------|

Tutti i valori giornalieri: mediana E20.1 / avversari

## Metodo e provenienza

Checkpoint 24×D-1: H24 prima dell'ultimo batch D1-D29, terminale D30. Flussi su tutti i batch del giorno. Persone = manovali + contadino; tratteggiate nel pannello coltivate = terreno sbloccato. Animali collocati esclusi deposito e inventari. MOVE e PASS richiesti, WATER/FEED/CARE verificati dal ledger. Non irrigate a H24 non implica morte; le perdite animali sono verificate al refresh. Tutti i replay hanno 720 stati DONE/DONE e ledger di cassa riconciliato. I test interni non sono stati rilanciati né la policy modificata.
